

To: The Town Council of Cambridge
From: Jan Whitman, resident of 87 River St.
RE: Glass and debris on the sidewalk
garbage in back uncollected

On Nov. 16th, Sunday at 2 A.M. there was a three-alarm fire which caused 78 River St., the apartment building next door to mine, to burn down. As a result of the blaze, there were and still are splinters of glass all over the block - which after four weeks, should have been cleaned up by the Sanitation Dept. Also, in the back of my apartment building there is an aggregation of trash which needs to be collected more regularly. Perhaps additional garbage cans would prevent the scattering of rubbish into the streets.

Most important, however, is the removal of these glass particles on the block, so as to prevent any further damage to unsuspecting pedestrians and to preserve safety to the community as a whole. We the residents of this block would appreciate any suggestions or help on your part.

Signed, Jan Whitman

In City Council December 15, 1969.
Referred to the City Manager
