RE: Application under Section 701 Comprehensive Planning
Assistance Program, City of Cambridge
(#A-73-89, Received March 8, 1973)

Dear Mr. Richardson:

In accordance with the provisions of the U.S. Office of Management and Budget Circular A-95, the Metropolitan Area Planning Council, as metropolitan clearinghouse, has reviewed the above referenced application.

We find the proposal generally consistent with regional goals, objectives and plans. We wish, however, that the relationship of City policies and programs to regional goals, objectives, and plans were better articulated. In particular, the absence of a recognition of the nexus between local and regional housing planning activities is made apparent by reviewing the housing portion of the application.

Very truly yours,

Richard M. Doherty
