Communication to The Council From Peter Valentine 37 Brookline St.

I have included a copy of a petition signed by The People of the United States of America. I have the original which I will present to the Council after I speak.

The reason I've given this preliminary opportunity for Council members to review it with interest, is that I believe this is a historical first of which the Council is part..

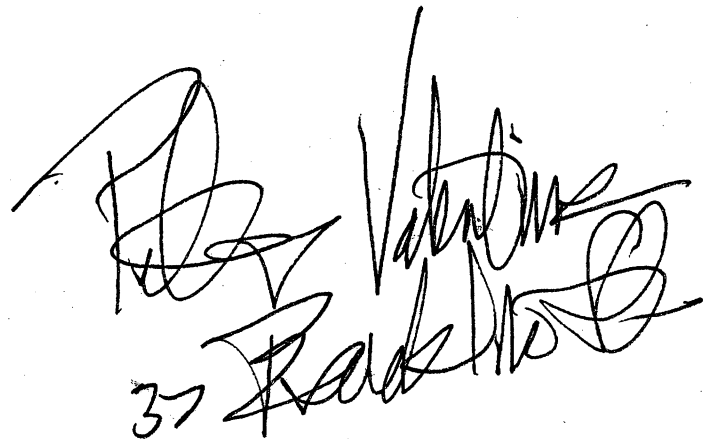

Never before as far as I know have the People presented to their government a petition to activate the power of their Unalienable Rights.

At first I thought to have it just signed by Cambridge voters but then I realized that the Unalienable Rights of Americans exist throughout the nation as long as a person is a citizen. So you'll see signatures from other cities.

It was easy to receive signatures for this petition. I merely held a sign up and people came over and signed it.

Therefore I only wanted an amount that would make the people's desire clear. You'll note that there are even signatures from the employees of the companies that are in University Park.
