Subject : Council Order No. 1 - February 26, 1979 - Councillor Sullivan
Renovations of the Council Chamber

The Public Works Department's staff architects are now reviewing the interior work of City Hall including the City Council Chambers. The exterior work to make the building water-tight has been completed and we are now proceeding with the interior work. This includes scheduling, and cost estimates of many facilities within the building including the Council Chambers, new electrical service, and heating and ventilating modifications. It is anticipated that this study report will involve three to five months time. At this time we will then have an estimate of the cost of the work and a time schedule.
