

Cambridge, July 18 1955

To the Honorable, the City Council of the
City of Cambridge:

The undersigned respectfully pray

that a nuisance be eliminated through the installation of a street catch-basin on Elmer Street, Cambridge, in front of the premises numbered 23 & 25 Elmer Street.

After each rainfall, there is an accumulation of water on the street that remains there for one or two days until the water evaporates; after which there is a residue of thrash, which because of the city's street cleaning department's failure to have the street cleaned, must be swept up by the residents of the building or the owner. This is a situation that invariably appears after each and every rainfall.

The Cambridge City Council is therefore respectfully requested to approve the installation of a street catch-basin at the above mentioned site so as to eliminate this public nuisance.
