

Cambridge, May 13th 1936

To the Honorable, the City Council of the
City of Cambridge

The undersigned respectfully prays

that the present and future development of the sewer system on 30,000 sq. ft. of the land of your petitioner and on 30,000 sq. ft. of land southerly of said land of the petitioner be considered by your representatives to the end that a main sewer be extended on the land of the petitioner for the benefit of all of said 60,000 sq. ft. of land. And your petitioner says that she is disposed to give the city such reasonable permits to lay and maintain said main sewer as the city may require and the benefits to the petitioner and the advantage to said 60,000 sq. ft. of land shall justify.

And the petitioner further says that one house on said 60,000 sq. ft. of land is well on its way toward completion and that if she is to grant the city said permits she wishes to go as soon as practicable in order that said house may be connected with said main sewer.

And the petitioner further says that the place of the said 60,000 sq. ft. of land is drawn on the back of this petition and made a part hereof.
