We would like to have our license for a cafe amended to allow us to have eight more tables. The tables we are using are custom made and only measure eighteen inches by eighteen inches (most cafe tables are thirty to thirty-six inches in circumference) our side walk at fourteen feet wide is more than adequate to accommodate these small tables. With the tables are walkway is still wider than our neighbor the Hong Kong's which measures only ten feet.

We have been successfully operating our cafe with no problems for four years. In fact we have had very positive reaction from our customers and neighbors. It has had a positive influence on our business, which we would prefer not to lose. We are family run and do not serve alcohol. I hope you will look upon our petition favorably and determine in our favor at your next meeting on September 9, 1997.

Thank You

The Bartley Family
