

Gentlemen of the City Government of Cambridge:-

Your petitioners would respectfully represent that Putnam St. is now in constant use as a public thoroughfare by large numbers of persons of all ages and both sexes - school children, laboring men and women, mechanics, printers, binders, etc., etc.

That the repeated upturnings of said street for laying pipes and drains have brought the brick clay to the surface, making horrible going both in the roadway and on the sidewalks a large part of the way from Main St. to and including the crossing of Western Avenue.

That in consequence of said muddy street your petitioners and others are subject to great damage and inconvenience. And therefore -

We respectfully ask that you will take measures to put said street in passable condition.

Thomas W. Telfs.
