

Cambridge, July 12 1872

To the Honorable, the City Council,

of the City of Cambridge.

The undersigned respectfully pray that as

The public convenience and necessity requires a Street to be laid out in extension of Walnut Street, so as to intersect with River Street nearly opposite Kent St. as contemplated to be built, now so dedicated, thence over said Kent St. to Western Avenue opposite Putnam Street, and as

This Street if built will open nearly a direct route from Old Cambridge and Harvard Square to Brookline Bridge and Boston, thereby opening a section of the City to direct access and largely increasing valuation. We therefore respectfully ask that the City Council lay out said street from Pleasant Street to Western Avenue as delineated upon a plan herewith presented and dated July 10th 1872
