

Dear Cambridge City Council,

I urge the City council to adopt the Ordinance for the Care and Use of Laboratory Animals in the City of Cambridge. I support the ordinance because it provides for public review of experiments by a citizen board, inspection of facilities by responsible representatives, and requires at least one animal welfare advocate on animal care committees within institutions. I believe the city must ensure that animals are not mistreated behind closed doors.

Sincerely,

Name: Linda Merritt

Address: 37 Antrim St Cambridge, Mass

Petition to Reduce Lab Animal Suffering

Whereas, many animals are killed in tests of questionable value for which alternatives exist,

We, the citizens of Cambridge, are in favor of a City Ordinance for regulating animal research which provides:

- 1) freedom of information,
- 2) inspection of facilities by responsible representatives,
- 3) an animal welfare advocate on animal care committee,
- 4) monitoring of painful experiments,
- 5) ending unnecessary animal experimentation.

Dear City Council Members,

I am writing to encourage you to vote for a strong animal protection ordinance. I have spent a career in medical research and can assure you that there are viable alternatives to animal research. Computer studies have been developed which are so sophisticated they are superior to contemporary animal research methods.

Please consider the words of Mahatma Gandhi :

"The greatness of a nation... can be judged by the way its animals are treated."

Sincerely,

Dr. and Mrs. David Creasey

Petition to Reduce Lab Animal Suffering

Whereas, many animals are killed in tests of questionable value for which alternatives exist,

We, the citizens of Cambridge, are in favor of a City Ordinance for regulating animal research which provides:

- 1) freedom of information,
- 2) inspection of facilities by responsible representatives,
- 3) an animal welfare advocate on animal care committee,
- 4) monitoring of painful experiments,
- 5) ending unnecessary animal experimentation.

Petition to Reduce Lab Animal Suffering

Whereas, many animals are killed in tests of questionable value for which alternatives exist,

We, the citizens of Cambridge, are in favor of a City Ordinance for regulating animal research which provides:

- 1) freedom of information,
- 2) inspection of facilities by responsible representatives,
- 3) an animal welfare advocate on animal care committee,
- 4) monitoring of painful experiments,
- 5) ending unnecessary animal experimentation.

PETITION TO REDUCE ANIMAL SUFFERING

SR

Whereas, many animals are killed in tests of questionable value for which alternatives exist,

We, the residents of the Commonwealth appeal to our government to minimize the use of laboratory animals wherever possible.

PETITION TO HELP LABORATORY ANIMALS

We the members of the M.I.T. community appeal to the Cambridge City Council to pass the Ordinance for Care and Use of Laboratory Animals. We support the ordinance because it provides for disclosure of information about procedures used, comprehensive inspections, and an animal advocate on each institutional animal care committee. The City must also ensure that commercial labs do not poison or blind animals simply to introduce new cosmetics and toiletries.

PETITION TO HELP LABORATORY ANIMALS

We the members of the Harvard community appeal to the Cambridge City Council to pass the Ordinance for the Care and Use of Laboratory Animals. We support the ordinance because it provides for public review of information about procedures used, comprehensive inspections, and an animal advocate on each institutional animal care committee. The City must also ensure that commercial labs do not poison or blind animals simply to introduce new cosmetics and toiletries.

PETITION TO HELP LABORATORY ANIMALS

We the members of the Harvard community appeal to the Cambridge City Council to pass the Ordinance for the Care and Use of Laboratory Animals. We support the ordinance because it provides for public review of information about procedures used, comprehensive inspections, and an animal advocate on each institutional animal care committee. The City must also ensure that commercial labs do not poison or blind animals simply to introduce new cosmetics and toiletries.

PETITION TO HELP LABORATORY ANIMALS

We the members of the Harvard community appeal to the Cambridge City Council to pass the Ordinance for the Care and Use of Laboratory Animals. We support the ordinance because it provides for public review of information about procedures used, comprehensive inspections, and an animal advocate on each institutional animal care committee. The City must also ensure that commercial labs do not poison or blind animals simply to introduce new cosmetics and toiletries.

PETITION TO HELP LABORATORY ANIMALS

We the members of the Harvard community appeal to the Cambridge City Council to pass the Ordinance for the Care and Use of Laboratory Animals. We support the ordinance because it provides for public review of information about procedures used, comprehensive inspections, and an animal advocate on each institutional animal care committee. The City must also ensure that commercial labs do not poison or blind animals simply to introduce new cosmetics and toiletries.

CAMBRIDGE MA.

PETITION TO HELP LABORATORY ANIMALS

We the members of the Harvard community appeal to the Cambridge City Council to pass the Ordinance for the Care and Use of Laboratory Animals. We support the ordinance because it provides for public review of information about procedures used, comprehensive inspections, and an animal advocate on each institutional animal care committee. The City must also ensure that commercial labs do not poison or blind animals simply to introduce new cosmetics and toiletries.

PETITION TO HELP LABORATORY ANIMALS

We the members of the Harvard community appeal to the Cambridge City Council to pass the Ordinance for the Care and Use of Laboratory Animals. We support the ordinance because it provides for public review of information about procedures used, comprehensive inspections, and an animal advocate on each institutional animal care committee. The City must also ensure that commercial labs do not poison or blind animals simply to introduce new cosmetics and toiletries.
