Dear City Council

I would like to suggest a study be done to decide if improvement of the signs that show drivers how to get out of Harvard Square/Central Square and on to the major exit roads is warranted.

Over the years I am always stopped by drivers (esp. in September and June) trying to find their way from Mass Ave to Route 2, The Pike or Route 95 north and south. Giving easy directions with minimum number of turns is as anyone who lives here knows somewhat difficult. The mantra in the back of my mind at these times is usually "You can't get there from here".

I am also always stopped by pedestrians on Harvard's and MIT's graduation days asking for the location of restaurants. I think we need more stationary info maps for the walking tourists and visitors. The Business community should donate on this one.

As you know we are unique in the number of colleges we have and thus the number of visitors not to mention the tourists that bring money into our community.

Thank you for your consideration in this matter.
