Dear Members of the Cambridge City Council:

The hearing conducted by the Ordinance Committee regarding the future location of 'The Tasty' was one of the better City Council meetings I have ever attended.

The comments by City Councilors about how we can protect, preserve and nurture and foster what we value in Cambridge were very good and point the way as to what should be done (+ can be done) - but, unfortunately to date, hasn't been done - to insure that any new construction (not to mention demolition) in Central Square on the part of Holmes Realty "Trust" is harmonious with the needs and "dreams" of our community.

The (so-called) Community Development Department continues to fail the Community in helping to bring this about - regretably. Sincerely,
James Williamson
